Saksham Jamwal

Sr. Product Designer

Work Experience

Senior Product Designer - IND Money

June 2025 - Present

Redesigned 8 **wealth-tracking** experiences across Savings, Equity, US Stocks, etc., helping users track their net worth, investments, liabilities, and portfolio insights in one place. The Equity tracking revamp alone drove **+243% MAU** growth (78K → 268K) and **+53%** visits/user.

Redesigned the landing pages for **InstaCash** (personal loans) and **InstaPlus** (loans against mutual funds), introducing multi-lender selection and cohort-customized mini app experiences that contributed to record quarterly disbursals of **~$52M (₹441 Cr)** on InstaCash and ~**$21M (₹181 Cr)** on InstaPlus, while increasing monthly InstaCash volumes by **61%.**

Designed and launched INDmoney's **tax filing platform** from scratch, simplifying ITR filing for **US stock investors and users with foreign assets** through automated prefills, zero manual data entry, seamless foreign asset reporting, and guided workflows, driving **54K+ impressions**, **33K+ tax prefills**, and **10K+ successful filings** at **D15.**

Designed and launched **INDsocial**, INDmoney's social investing platform, enabling users to share portfolio performance, discuss market insights, and engage with the investing community, reaching **452K+ feed viewers** by **D30**.

Led cross-product engagement initiatives across US Stocks and Bill Payments, increasing feature activation by **15%** through contextual discovery and cross-sell experiences.

Product Designer II - Zepto

June 2024 - June 2025

Worked on the Zepto Cafe revamp, boosting PiP-to-order **conversion by 3.23%** and accelerating **add-to-cart time by 4%** with a SKU-first design.

Redesigned Zepto's referral flow, driving a **60% increase** in referral FTBs and 140% growth in shares by introducing new entry points and seamless phonebook sharing.

Drove FTB conversion **uplift by 12%** through growth experiments like "Free Cash" and other incentive-led interventions across the homepage and order tracking touch-points.

Owned and shipped a **customer service ticketing tool in 10 days,** replacing the third party customer support system with a workflow-optimized, agent-friendly internal platform.

Achieved **+2–2.4% ATC lift** across key categories (Dairy, Biscuits, FNV) through scoped search experiments integrated on category browse pages.

Product Designer at Zee 5

June 2023 - June 2024

Designed the flagship 'Content-led Commerce' feature on Zee5, expected to generate **₹1.5 Cr revenue** and **3.2L+ leads**.

Seamlessly merged online shopping within OTT content viewing without impacting engagement metrics.

Worked on **UX audit** of subscription flows using heuristic evaluation and NPCI model — initiated a complete revamp with stakeholder.
